Conservation Board Sets New Oil Well Allowables

Redwater oil field allowables of 41,400 barrels have been fixed for the period May 1 to July 31, I. N. McKinnon, deputy minister of mines and minerals, announced today.

Speaking as chairman of the Alberta Petroleum and Natural Gas Conservation Board, Mr. McKinnon also said Leduc allowable for the lower Cretaaceous of 100 barrels average per day has been extended to May 31.

A maximum of 500 barrels in a 24-hour period was also set for the 95-day period at Redwater.

By agreement with operators, four of the 32 wells affected in the Redwater area, 30 miles from Edmonton, will have a lower average allowable: two of 32,000 barrels for a 24-day period, one of 30,000, and one of 27,000.

DANGER FROM WATER

These wells have a thinner pay zone and it was felt too rapid production might result in water entering the oil flow.

Leduc presently has allowables of 150 barrels per day in the 12 zone and 100 in the D2 zone.

Mr. McKinnon emphasized that these allowables are tentative, being based on technical information presently available, and that relation of production to prairie province maximum consumption has not been considered.

NO PROXIMATION POLICY

At the rate of present oil development in the province, prorationing in relation to consumption probably will have to be considered, Mr. McKinnon admitted, but he said he has no statement of policy at present.

Before July 31, the Conservation Board will have another meeting to further consider technical evidence to determine another three-month period of allowables.

Mr. McKinnon agreed that Schoepf, when a proven field, will probably be granted allowables based on the rate of potential production.

This has been the principle in granting larger allowables to Redwater than Leduc, but more technical factors than indicated pay zone have to be taken into account when facing allowables.

At present, an allowable is not being considered for Schoepf No. 1. It has not been the policy of the board to regulate for only one well, Mr. McKinnon said.

More Warm Weather Here

Skies will be variably cloudy over Edmonton today and tomorrow, bringing light winds and a predicted high today of 15 degrees.

Tomorrow will be almost as warm with a maximum temperature forecast at 72 degrees. Overnight low tonight will be 40.

Yesterday was warm in the prairies with temperatures generally above normal. High in Regina was 75. High in Edmonton reached 80.

Overnight low at 5:00 a.m. today was 35, compared to a low of 20 for the same day last year.

THE SURE WAY

Now Is Time To Get Sale For Your Car

With the steady flow of new cars coming onto the market, second-hand sales are slackening.

But there are still numerous people who want anything from an old jalopy to an almost new automobile.

So if you have a car you want to sell, now's the time to get the best price. It is easy to sell or to get a satisfactory trade if you go about it the right way.

Just like the Edmontonian who advertised his car on the Monday and sold it on the Tuesday.

That's the way The Bulletin can do service work—quickly, efficiently and economically.

Industrial Area Set For South Edmonton

An extensive industrial area will be developed in South Edmonton to meet expansion resulting of oil developments in the Leduc and other fields adjacent to the city.

3 Defendants In Death Suit

Damages totalling \$20,000 are sought in a Supreme Court action filed today by the law firm of Rutherford and Newton on behalf of Jean Vallant, St. Albert.

Defendants in the action are Andrew Beida, farmer and Walter Podgurny, laborer, Colinton district, and Chester Wallace, Edmonton.

Action arises out of an accident on the St. Albert Trail just outside the city limits on October 27, 1938, in which George Vallant received fatal injuries.

He was a passenger in a truck owned by Beida and which, according to the statement of claim, was being operated by Beida or Podgurny when in collision with an automobile operated by defendant Wallace.

70 Ships Being Built In Japan

FATHER VICTIM OF HOAX

AN IMPOSTOR impersonated John Sutherland by long distance from Toronto yesterday and announced, "I am your son."

Sutherland, 66, who believes his son Wilfred is still alive despite the fact he was killed in action, said he had been killed in action, said he was a cruel hoax.

"This is not the voice of my son," he told the man on the other end of the collect call, and hung up. Sutherland said he believed the impostor was the ex-cousin who walked into a Toronto newspaper office recently.

and told reporters he was the last son of John Sutherland.

Pictures subsequently published by the paper brought identification of the man as an impostor. He has not been about since.

Sutherland said he searched for his son on Easter Sunday last year while in London, England. He claimed he saw his son in King's Cross station there. But, before he could reach him, he was in the crowd. He maintained a four-month fight to finally released home.

At 1:30 a.m. yesterday the 66-year-old father was awakened by a call. He was asked to accept charges. He took the call and was told to say these words: "I am your son."

"What is your name?" asked Sutherland. "I am your son," he said. "Don't you know your own name?" asked the voice at the other end.

"What is your name?" repeated Sutherland.

Pipeline Bills Make Progress

Final Reading In Senate Likely Sometime Today

OTTAWA, April 27.—(CP)—Parliament's pre-decision solution drive to clear the way for the first rush of oil and gas pipeline construction in Canada passed more hurdles yesterday.

The Senate gave approval in principle to a second reading of its bills involving private firms that would build lines in various parts of the country, mainly to tap the natural resources of Alberta. Later, the Senate approved them in detail and sent them back for final reading, probably today.

Under the formula, republican units of the Commonwealth would recognize that a sovereign state and also a member of a free association of which the bill is one of the symbols.

A unanimous autonomous agreement in principle on the constitutional aspects of Commonwealth relations was expected to be issued tonight.

Red Seamen Seek Strike Settlement

By The Canadian Press

Termination of the east-coast seamen's strike, which in less than four weeks has tied up two-thirds of the Canadian shipping fleet in world ports, was placed in the hands of the federal government and shipping operators Thursday night by Harry Davis, president of the striking Canadian Seamen's Union.

Solitary bids of ending the strike, he said, was the result of contracts between the CSU and the shipping operators.

Meanwhile, violence flared briefly in Saint John, N.B., two RCMP officers were slightly injured in a scuffle with pickets. The pickets were about 500.

The CSU had reported they were attacked and in Montreal, Gerard Dube, CSU local president, was beaten and knifed by four men near the waterfront. He required four stitches.

Officer was believed suffering from a head cut and the other a possible broken nose. The others were not seriously injured.

Addressing some 130 representatives of 47 individual trade unions in Toronto, Davis said that "The CSU is prepared to end its east coast strike tomorrow if the federal government would arrange a meeting with deep-sea operators."

Matthew Stewart, president of the union here, said that on the company here, said that the projected \$500,000 a year line through the ship and Westchester will cross the Cascades via the old Cascade tunnel.

The old tunnel has not been used since 1929 when the present route was opened. The present tunnel is the longest railway tunnel in the western hemisphere and Stewart said construction of the gas line will start as soon as the government issues a gas export permit.

The gas line will be approved by the end of 1940 if the application is approved soon.

Study Is Urged In Washington

RELIQUARY, Wash., April 27.—The Pacific Northwest Trade Association yesterday adopted a resolution calling for continued study into possibility of a pipeline to transmit natural gas and oil to the American and Canadian Pacific northwest from the Alberta fields.

Charles B. Lindemann, Seattle Post-Intelligence publisher and past president of the association, declared in a speech before the group.

He said his Seattle committee knew of no private plan to build a railroad or line across the province to carry gas from the British Columbia fields to the Pacific northwest.

U.K. Talks On India Successful

LONDON, April 27.—(UPI)—The Commonwealth conference has agreed on a formula permitting India to remain within the British Commonwealth as an independent republic. It was learned today.

Under the formula, republican units of the Commonwealth would recognize that a sovereign state and also a member of a free association of which the bill is one of the symbols.

A unanimous autonomous agreement in principle on the constitutional aspects of Commonwealth relations was expected to be issued tonight.

B.C. Hamlet Of New Violence

CATLAGER, B.C., April 27.—(CP)—Every provincial police constable who can be spared will be moved into this Doukhobour country at once in a crack down on renewed incendiarism blamed on the radical and rampaging Sons of Freedom sect.

At this centre of 1,500 population met in emergency sessions to plan against the latest outbreak of Doukhobour terrorism, attorney-general Gordon Winter announced at Victoria yesterday that police are being rushed to the area and will be on 24-hour patrol.

Red Armies Closing In On Shanghai

SHANGHAI, April 27.—(UPI)—The Communist juggernaut moved toward Shanghai today after a two-day pause, threatening the leader of the outpost of Souchow 30 miles to the west and sending advance raiders within 25 miles of this restive and fearful metropolis.

Regrouped and refreshed, the Communist armies edged forward to positions from which they could launch a broad attack on Shanghai or isolate it by slicing across to the sea southeast of the city.

CHIANG URGES RALLY Generalissimo Chiang Kai-shek, for decades the leader of the Nationalist government, sounded a rallying cry to his followers. He asked them to fight the Communists with the same tenacity they displayed against the Japanese. The Communists, he said, were trying to convert all China into a military base and source of manpower for world domination.

Nickel to Still Buy Ice Cream Cones Here

One nickel will continue to buy an ice cream cone for Edmonton children despite a threatened rise in ice cream prices.

Reports from Ottawa indicate that the government may authorize a boost in the butter-fat content of ice cream to produce higher prices, but will bring butter fat content from 16 to 13 per cent, and result in a price increase of more than 10 cents a gallon on the wholesale commodity.

But Edmonton dealers say every effort will be made to hold the price of ice cream cones to five cents.

The kiddies have to have some thing they can buy for a nickel, one dealer told the Bulletin today. Price increases which may be made necessary by the butter-fat boost will likely be absorbed by slight increases in the retail price of ice cream cones.

Naval Hearing Ends Tonight

HALIFAX, April 27.—(CP)—A navy court of inquiry into incidents aboard the aircraft carrier Magnificent broke down when the operators signed an order on the royal Seafarers' International Union.

The court was expected to end tonight, a navy spokesman said. The court has been sitting two weeks.

He said results of the probe will be released through naval headquarters at Ottawa.

The board of inquiry will open sittings in Vancouver May 2 to investigate similar stop-work incidents on the destroyers Crescent and Athabasca.

New 4-Room School Opens at Vermilion

New four-room school was officially opened at Vermilion on Friday. Chairman of the Divisional Board, Jas. D. Adam, started proceedings by calling on W. R. Cornish, M.L.A. for Vermilion riding to cut the ribbon and declare the building officially opened.

Mr. Cornish, in representing the provincial government at the ceremony drew a vivid picture of the change in procedure and equipment for imparting education to children since he attended school in England in his youth.

He pointed out that, if the children were properly educated, the nation need have no fear for its future. He cut the ribbon and turned the key back to Donald Taylor, chairman of the local school board.

Mr. Taylor reviewed the circumstances which led to the erection of the new school. He spoke of the difficulty in securing material for building and proper equipment. Speakers at the opening ceremony also included D. C. McGrath, chairman Vermilion Division Board, Mayor J. W. G. Morrison, K.C.

The new school, cost of which is approximately \$26,000, is of stucco and frame construction and is given Vermilion a total of 17 rooms. The building will accommodate 31 grades and 2 pupils. Teachers are Miss Dorothy Edworthy, principal; Miss Ira Shaw, Miss Dorothy Devilder and Mrs. Ruth Adamson.

DISTRICT NEWS IN BRIEF

Lloyd. Maintains Rapid Expansion

LLOYDMINSTER, April 27.—Almost \$200,000 in building permits have been issued at the municipal office in Lloydminster already this year. Included in the list of those permits granted recently are three new store buildings.

One, a two storey concrete block structure at the corner of 40 avenue and 40 street, just one block from the post office, and another covers a one storey concrete block building adjoining the new home of Fishers' to \$100 store. It is anticipated that both of these buildings will be ready for occupancy this fall.

Another store building is being erected on the post office, south of the post office, work has already commenced on this structure.

HOTEL UNDER WAY

Work also has commenced on the big quarter million dollar hotel being erected one block south of the post office. The basement for this building was excavated last fall and covered until this spring. It is anticipated that a portion of this new modern hotel will be opened to the public this autumn.

The fifty houses being erected under the Wartime Housing plan will soon be moving into their new and commodious building erected south of the present school at a cost of over \$160,000.

SERIOUS OVERCROWDING

It is quite possible that two classes of the overcrowded public school will move into building erected by the high school pupils to relieve the congested condition at the public school. The condition is really serious, there being 500 pupils jammed into a school originally erected for 240 pupils.

On May 3 the ministers of education of both Alberta and Saskatchewan will visit Lloydminster to look over the serious condition. It is hoped these gentlemen will be able to suggest a way out of the problem facing the school board.

It was announced at the Board of Trade meeting tonight that the debtors issue for the new high school had been sold.

Double Election For B.C. in June

Both Coalition and CCF Have Tangled Party Lines

VICTORIA, B.C., April 27.—(CP)—British Columbia will go to the polls twice in June and the political campaigning they will face in the next few weeks is expected to be the most hectic in the province's history.

The "double election" talk already was having yesterday. June 13, the province's Liberals and Progressive Conservatives will call the voters to them in the coalition government they have elected since 1942. It will be a solid stand against the CCF.

Final Appeal Made To Ottawa On TCA Transfer

WINNIPEG, April 27.—(CP)—A final appeal against transfer of Trans-Canada Air Lines' operating headquarters from Winnipeg to Montreal was made yesterday by Premier D. L. Campbell of Manitoba in a telegram to Prime Minister St. Laurent.

Mr. Campbell urged the prime minister give his "personal attention" towards preventing the transfer.

GIFT ACT INJECTED INTO ONT. BATTLE

TORONTO, April 27.—(CP)—Kris Roberts, one of four candidates for the Ontario Progressive Conservative leadership, has injected the controversial "Gifts Act" into the campaign for the office.

In his formal speech to the three-day leadership convention he said that if he were elected leader he would call a special caucus of all members of the party with a view to reviewing and reconsidering provisions of the measure which requires charitable foundations to dispose of all but 10 per cent of their interest in any business.

His announcement in the packed convention hall was greeted with mingled applause and boos. The act, which affects the Atkinson foundation, owner of the Toronto Star and Star Weekly, was introduced in the legislature by Hon. Leslie Frost, provincial treasurer and another leadership candidate.

Mr. Roberts was the last speaker at the night of speech-making, the only general session of the leadership convention yesterday.

Voting today, he was preceded by Leslie Frost, attorney-general, Mr. Frost and Dana Purser, minister of education.

Court Quashes Girl's \$40 Fine

MONTREAL, April 27.—(CP)—A lower-court conviction against Miss Lois Odell, member of the Jehovah's Witnesses sect, for canvassing for the sale of books of periodicals without a license, was reversed in Superior Court yesterday.

Mr. Justice A. J. Smith ordered that a fine of \$40 and costs, the sentence handed out by a suburban Lachine recorder's court, be set aside.

The judge said there was no proof that Miss Odell had solicited money for books or pamphlets.

The evidence indicated she had tried to influence one of the witnesses to become interested in her religion rather than buy anything.

BALL TEAM MADE UP OF SINGLE FAMILY

SALEM, Mass., April 27.—(AP)—Anyone outside the family probably will have trouble keeping the box score when the Doyle brothers play baseball next Sunday.

The brothers, who had considerable success last winter playing baseball, will take in the diamond filling every position as they meet a travelling aggregation known as the New England Bearded Hoobers.

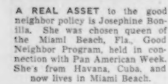

The Doyle family lineup was: Tom, 15, c; Jim, 20, 3b; Jack, 24, ss; Joe, 24, p; Dick, 22, 1b; Dave, 11, 1b; Peter, 10, cf; Leo, 17, rf; Phil, 18, 2b. They all have played ball since they were able to hold a bat.

A sister, Mary, 14, will keep score on the bench; Ann, 13, and Ellen, 12, will coach at third and first, respectively.

A mature milk cow will drink an average of 15 gallons of water a day.

PIERCING LEG PAINS

Are your leg pains like a knife driving through the flesh? Is your walk a hard one to straighten your leg? Thousands recommend Truvenol's T.M.C.'s for quick relief of tearing, aching pains. You too, can get relief with T.M.C.'s. \$1.25 at drug counters.

Merchantmen To Be Aided

OTTAWA, April 27.—(CP)—Government provision has been made for educational benefits for merchant seamen of the Second World War up to the age of 30 years. Transport Minister Chervier told the Commons today.

Replying to a question from John Probe (CCF—Revised C-7), Mr. Chervier said the government had made regulations in line with recommendations of the Parliamentary Veterans' Committee for "educational benefits" for merchant seamen.

The minister said he knew of no provision for waiving the 30-year limit, as asked by Mr. Probe.

Siamese Girl Twins Born In Germany

DORTMUND, Germany, April 27.—(AP)—Siamese girl twins, born here April 18, are still alive, professor Georg Meyer-Zollner of the communist children's clinic said today. The twins are said to have two heads, two hearts, three arms and two legs.

Abbott to Stand Fast On Gradual Decontrol

OTTAWA, April 27.—(CP)—Finance Minister Abbott said yesterday the government does not intend to turn back on its program of gradual decontrol, although it will give consideration to providing larger and easier loans for home-builders.

He made this reply to a six-man delegation from Montreal which asked for a return to full rent control and suggested that the government provide 100-per-cent loans for workers wanting to build their own homes.

Headed by Fernand Bilec and claiming to represent 200,000 workers in Montreal, the delegation presented a 36,000-signature petition to Mr. Abbott. The petition asked that the government take action to stop all evictions in Canada; that it reimpose rent control; arrange for revocation of all rents, and launch a program of low-cost housing.

Mr. Abbott told the delegation that courts were at the disposal of any tenant who felt he was wrongfully being evicted.

He said that under the British North America Act the government did not feel it could legally continue with controls and plan to continue with the program of gradually lifting them.

The delegation was sponsored by the Tenants' Protective Society of Montreal and claimed support of at least 50 civic groups.

Attempted Rape Brings 8-Month Sentence In South

LETHBRIDGE, April 27.—(CP)—Alec Popovich, 42-year-old Teller boat worker, was found guilty of attempted rape yesterday by Mr. Justice C. J. Ford in the eighth month of his Lethbridge provincial jail with hard labor.

Previously, Popovich had taken the stand in his own behalf and denied counsel Arthur Beaumont called three witnesses.

Popovich was charged with the attempted rape of Miss Alice Cook to downtown Lethbridge last March 8.

Major ON SPORT

By STAN MOHR, Sports Editor

Edwards, Wakefield and Newhouse

Little more than two weeks ago, Detroit's Dick Wakefield, the original big bonus (\$50,000) recruit of the major leagues, test off on a Los Angeles offering to claim the ball for over the right field wall of Woodcock park in Memphis, Tennessee.

Wakefield was called the shot by way of answering Edwards' battery-mate, "Hitchy I hit a homer." Wakefield had bragged, "Next minute he was jogging the bases and the plate umpire was calling him in for a new ball into play."

The same Los Angeles, by this time installed as manager of the local Cubs of the Big Four loop, was talking about the incident at Henshaw Park last night.

"What kind of pitch did he hit? Why a fast ball, of course. He hit it right into the glove, too," the Canadian-born right-hander assured.

Then in the next breath Edwards pointed out that he doesn't take himself too seriously, a very good sign. "I earned another distinction in that game," he went on. "Hal Newhouse struck me out on three pitched balls. Of course he's done that as a lot of GOOD hitters."

He Looks The Part

The new Cub Arawab got over in pretty good style with those who encountered him as he handled his first workout at Henshaw.

For one thing he looks the part of a ball-tosser. What's more he talks the game as you hear it talked in dressing room or on bus or train when the fellows who put on the show go into a ball session.

Not that this is a guarantee of performance once the umpire shouts "play ball." But most good athletes have that bearing that sets them apart from the day-long pencil pusher and frequently they "talk a good game" to go with it.

Born in St. Boniface, Man., the hefty Edwards first caught the eye of professional baseball scouts as far back as 1941. The Chicago White Sox signed him only to have the war intervene. It was the service for the Pale Horse hopeful over the next four years.

To start the 1948 season Edwards was with Gusden in the Southern League. Later in the year he shifted to Henderson of the East Texas circuit. Next spring his contract was turned over to Greenville of the Carolina League.

The book (well Taylor split, if you insist), says he won 31 games against 32 setbacks in those two seasons in the C and B leagues.

What's more he should win in the Big Four loop... but often.

A Future To Think About

You can't prove it by us yet Edwards is in Edmonton, preparing to take his baseball semi-pro style when there's little reason to doubt he could be serving 'em up in Memphis, say.

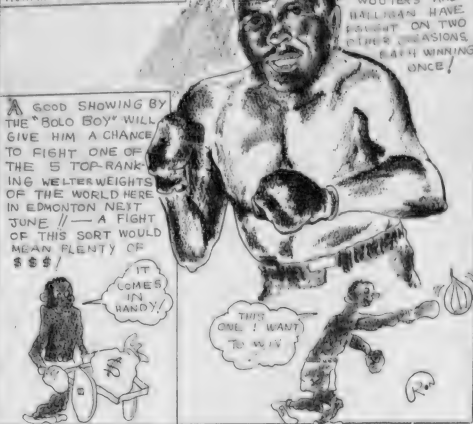

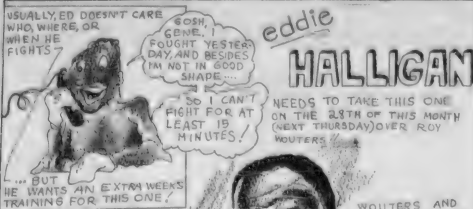

He puts it quite simply: "There's no use being in baseball unless you can go to the big leagues. I didn't seem to be getting there very fast and at my age the days here 27 but it's not like me 20 it was time to start figuring the future."

"The offer from the Cubs, business opportunity and all, was just too good to pass up."

This seems to make sense. Further his philosophy on pitching 'stuff', indirectly expressed, indicates that he has a pretty level think-tank on his shoulders. "I know a fast ball, curve and change-up (change-of-pace). Is there more?"

None of that hokum about sliders and knucklers and more trick offerings. No going off the deep end just because he was fresh out of the baseball country, fresh from duelling with mashers like Dick Wakefield.

But then very likely he's trying to forget all about Wakefield, to say nothing of 'Lefty' Hal Newhouse.

Roy Wouters Versus Ed... Nuff said!

Touchdown Dunsworth Has Starry Sport Record

By Jim McCurdy

The roll call of athletic achievements of Dr. Marcus Dunsworth, newly-elected president of the Touchdown club, readily provides ample evidence of his suitability for the post.

Numbered among his successes are six Alberta tennis championships, one Western Canada championship, a position on the 1962 and 1963 Yukon teams which were the first from the west to challenge for the Dominion football title. And he was captain of the Edmonds in 1954 and also an outstanding track star.

But wait, that isn't all. There is a membership on several Alberta basketball, championship teams, a couple of city basketball championships and a little baseball and hockey and you have a man who, well, knows his way around other sports are concerned.

Tennis... HIS BEST. Possibly his greatest achievement came in the field of tennis where, starting in 1952, he captured six provincial titles in seven years, ending only in 1959 when Bud Waugh of Winnipeg, Manitoba, championed him.

After winning for the fifth time in 1958 the Guy Driscoll cup was given to him permanently.

In track he has been special in the 100-yard dash and covered the distance in 10.1 which back in the 1920s was rated as very good.

A CRICKER now. At the age of 35, his athletic prowess is still in top shape. Now, at the age of 35, his athletic prowess is still in top shape. Now, at the age of 35, his athletic prowess is still in top shape.

With the redoubt of football in his hands, he has played while heartily into banking the efforts of Shibus, Monague, Shuster and the rest.

Naturally happy over being chosen a year of the Touchdown, an organization of football boosters who aim to get the game back on its feet here, Dunsworth says he wants to do "What I can" and be the best in the first year. If we can keep the game interested through the first year we are over the hump."

Loss of sleep is more injurious to the body than starvation.

PINCHES EDMONTON Western Grid Reserve Clause Under Fire

WINNIPEG, April 27—(CP)—The trend toward tighter control by sports promoters over athletes has made the reserve clause one of the most controversial subjects in the Western Intercollegiate Athletic Association.

Reservists and players in the WIAA have voiced opposition to the clause instituted in 1928. But the executives say it's needed as a protection measure.

Re-entry of an Edmonton member in the Western Football League has focused attention on the clause. Starting from the Edmonton team's market for pickup artists and, notably, it is the league's financial health.

Yankee-by-Accident Keeps Patched-Up Club on Top

NEW YORK, April 27—A youngster who got into the lineup by accident is the latest reason why the patched-up New York Yankees kept on winning American league games.

The youngster is a leg injury—sidekick George Skovronski was the second day of the season, to join the 19th place Yankees. Skovronski was patched up on his leg. APRIL 30

That Day Is Back Saturday

Edmonton taxpayers have only until Saturday to make their peace with the income tax department.

Saturday is the deadline for filing income tax returns and paying the balance, if any, of income tax due for the 1938 year. For most Edmontonians, major part of the tax has already been deducted at the source by employers.

After Saturday, a \$5 minimum penalty and a 5 per cent maximum penalty will be charged on income tax due.

The local income tax office in the Tower building, already doing a land-office business, will extend its business day by five hours on Saturday and will re-open on Sunday and 9 for the convenience of taxpayers.

Returns postmarked Saturday and mailed to the local office will be accepted as being filed in the deadline.

Outbreak of Vandalism Has Authorities Worried

ENUMERATION START SEEN FOR MAY 9

Counting of electoral noses for Edmonton's two federal constituencies will start on May 9.

This enumeration will compile voters' lists to include all Canadians of 21 years or older. Since there will be no "measuring in" of voters on election day, it is important to city voters that their names appear.

Lists for each poll will be made by a pair of enumerators selected by political parties who had contested the seat in the previous election.

The city's increase in population since 1915 will mean an increase in the number of polls in Edmonton West, but even so a section of the city will be left out in a rural riding.

That is the Pleasantview settlement of veterans on the South side, who live on the former Martin Estate. These families will be required to vote in Wetaskiwin constituency.

Officials Plan Action Against Young Offenders

"Shoot to kill."

These alarm instructions were recently given by a juvenile gang leader to his "henchmen" during spring "war" maneuvers in the 116 street and 104 avenue area.

With a fairly steady stream of juvenile play with 22 rifles, ranging in age from 15 years, who has seen some of a variety of firearms, from .25 caliber to .38 caliber, along the railway tracks near 116 street, had the police.

One boy had been hit on the head and one in the face by an air rifle.

In one incident an Indian hit the foot. Two youngsters played the game, along Stony Plain road shot an Indian with an air rifle.

Another favorite pastime of the boys playing with rifles was to shoot at the windows of the houses in the area.

A 22 rifle in a house was shot at by a boy, who was shot at by a boy, who was shot at by a boy.

Special instructions have been issued to all parents to see that their children are not allowed to play with rifles.

Chief Jennings stated that further instructions would be given to all parents to see that their children are not allowed to play with rifles.

Choral Group Draws Praise For Concert

Battered old Masonic Temple place was all spruced up last night cheerfully decorated for the fourth annual concert of Woodward's Choral Society.

Conducted by Leonard Barnes, the chorus, with assisting artists, presented a varied program of light cases' music. The program will be repeated tonight, beginning at 8:30.

Everything was out for the occasion in his best bib and tucker, more so, and the girls in brightly colored gowns and they presented an interesting new feature of the kind of music everyone likes to hear and enjoy.

For those wishing to see such organizations as the Choral Society, for it is the constant activity of these groups which will continue to advance Edmonton's cultural growth, hindered though it is by lack of suitable auditoria facilities.

Benefit for All Seen In Friendship Council

Conception of a world in which the accent is on free individuality is the ideal of Rev. Richard B. Jones of Toronto, director of the National Council of Christians and Jews.

Mr. Jones is visiting Edmonton in the course of a tour to organize committees of Protestants, Catholics and Jews to further the work of the council.

Cultural pluralism is the term Rev. Jones uses in describing his conception of a world free from intolerance.

"I like to think of a nation as a symphony orchestra," he said. "Each group contributes its individual share to the whole."

Rev. Jones does not like to think Canada will become a melting pot like the U.S.A., where nationalities are mixed and indivisibly lost.

"Besides, it is rather more like a symphony under supervision," he said.

NOT SAME PLACE

"Nor do we sponsor the idea of putting all religions on the same plane," he emphasized. "We are all different. We do not minimize our differences. We accept our common goal—to live as happily as we can in peace and brotherhood."

He expresses the work of the council as civic work in a motivated people. No one race or religion will benefit directly. All will benefit indirectly, he said.

Mr. Jones congratulates Canada on having less prejudice than any country he has visited, but unfortunately finds a tendency to succumbing here too.

Council of Christians and Jews is composed of 17 countries of the world and in 12 Canadian provinces.

"The Canadian Council of Christians and Jews is the only one of its kind in the world," he said.

Rev. B. S. Paulk, pastor of St. Paul's Church, said that the council is in charge of arrangements for his Edmonton visit. Yesterday he was guest at a luncheon attended by moderators of several Protestant church groups, representatives of the Catholic church and the Jewish community.

Rev. Jones was host last night to a dinner of about 100 guests, including the Edmonton Jewish community, at a conference with the inter-religious committee of the R.C.M.P.

City Survey Of Crossings Starts Today

Survey of level crossings in Edmonton to determine priority policy on subway construction and installation of safety devices is being made by Board of Transport Commissioners representing and J. D. A. Macdonald, acting city engineer.

The survey started today, and will take several days to complete.

Main purpose, however, is linked with the city's bylaw proposal to appoint a team studying within the city limits.

This bylaw was drafted several months ago, but its passage has been held up pending survey for the installation of safety devices at the city's level crossings.

Farm Study Groups Plan Merger Soon

Merger of the Alberta Institute of Agriologists and the provincial branches of the Agricultural Institute of Canada is slated for the near future.

This was announced at the annual supper meeting of the Edmonton branch of the Agricultural Institute of Canada held last night.

Nearly 100 members and guests from other branches in Alberta attended.

The merger, which has now been unofficially agreed upon by the Edmonton, Calgary and Lethbridge branches of the Agricultural Institute, will not alter the status of either organization. The new organization will probably be an amalgamation of the two organizations.

Presenting his annual report, president of the branch, D. H. McCallum, president of the committee, stated that the year had been

Brief Homecoming Fling Gets Young Man in Dutch

A 20-year-old city negro just returned from five years in the United States ran afoul of the law on three different counts here and was locked up before he had a chance even to look over his old home town.

Eugene Mack was arrested by Constable Tom Hooper last night in a downtown cafe after he was found in possession of a bowie knife with a 4½-inch fixed blade.

When asked why he was carrying it, Mack apparently replied: "Just in case."

It was also alleged in court today that someone had stolen some clothing from Harry Bridges, 6642 102A avenue, an acquaintance.

SOCIAL and PERSONAL

STARCHED white uniforms were exchanged for pretty party frocks when graduating nurses of the Misericordia Hospital School of Nursing were honored at the annual banquet and dance, in the Macdonald hotel. Parents of the 46 graduating nurses were guests at the banquet. CALDER COMMUNITY HALL, rates bouquets as one of the finest in Edmonton. And Calder residents take the thought for efforts and money contributed. The staunch-fitted hall will open officially tomorrow with

an open banquet and dance. Ribbon cutting ceremonies will be conducted by Lin Bell, who stands left here with hall caretaker Clayton Hanson.

Calder Boasts Largest Community Hall in City

Edmonton's largest community hall will officially open its doors to the public tomorrow.

After more than a year of planning and construction, the new hall, located at 1278 127 Ave., next door to the playground and close to schools and residential areas.

Calder has been without a community hall since the old hall was destroyed by fire in 1938. The new hall is a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.

A year ago the hall was under construction. Work on the building was completed except for the interior. The hall is a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.

NEAR PLAYGROUND
Well situated near the center of community activities, the hall is at 1278 127 Ave., next door to the playground and close to schools and residential areas.

Calder has been without a community hall since the old hall was destroyed by fire in 1938. The new hall is a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.

Large square front doors open on to the committee room, 25 x 25 feet square. Walls are plastered and the ceiling is equipped with adjustable metal chairs. The hall is a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.

Large STAGE
The hall proper stretches along one side of the building to a length of 30 feet. Built-in benches, 20 feet long, are planned to fill three walls and an adequate stage is set at one end of the hall.

Already decorated with carpeting, the hall has been finished with a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.

Small stage, 20 feet long, is set at one end of the hall. The hall is a large, modern building, originally a steel frame, now completely finished with exterior walls, roof and interior.
